

# William Braney

## Full Stack Developer

---

Dynamic and detail-orientated Software Developer seeking to start a career in development. I have recently completed an intensive full stack development course which alongside university experience and online Cisco and Codecademy courses, I hope will enable me to enter an industry that I find fascinating. I have experience working in a team and independently on projects and businesses which has provided me with a well rounded skillset that is ready for any opportunity.

---

## Projects

---

### Table Tennis Tournament Generator

HTML, CSS, JS, React, Redux, Git

Using React and Redux, I built an application enables the user to input player names that will be shuffled and entered into a knockout tournament. Winners can be selected from each round and will then appear in the next round.

<https://github.com/Williambraney/PingPongTournamentGenerator.git>

### Ping Pong Scoring Application

HTML, CSS, JS, React, Redux, Git

An Application that tracks the scoring of two players within a game of Ping Pong. Serve change, names, and the winning score can be manipulated by the user.

<https://github.com/Williambraney/PingPong.git>

### Book Search Application

HTML, CSS, JS, Laravel, React, Redux, Git

Website that uses a React/Redux front-end and a Laravel back-end to store and display books and authors. This project was completed as part of a team. My role was to aid the development of the front-end.

---

## Employment History

---

### Small Online Business Owner

June 2019 - PRESENT

*Created and managed a small eBay Business part time which I would source and refurbish iPhones and iPads in order to sell for a higher price.*

- Developed a knowledge into phone hardware and business handling.
- Stored financial data within a spreadsheet that displayed expenses and profits.
- Was successful enough to replace my bartending job as my income whilst completing my studies.

### All Bar One / Team Leader

January 2020-December 2020, Southampton

*Created and served cocktails amongst other beverages at the bar, whilst waiting and delivering food from the kitchen*

- Was promoted to a Team Leader by a staff vote.
- Managed To take responsibility for the bar, by maintaining stock levels, retaining a tidy work environment, managing staff and distributing roles.
- Training and interviewing new members of staff to succeed in the work environment

### Scholars Arms / Team Leader

March 2018-August 2019, Southampton

*Was a leader within a team serving food and drink, working primarily from the bar whilst also ensuring customers are satisfied with their dining experience.*

- Responsible for the finances and closing of the restaurant when working.
- Trained, interviewed and integrated new staff.

### The Crown Hotel and Restaurant/ Team Leader

August 2014- September 2018 Suffolk

- Promoted Twice to gain the Team Leader status

---

## Hobbies & Pastimes

---

Football is a sport I love to play and am proud to have represented my county a period ago. I am fascinated with ways to improve well-being through gym and nutrition. I also enjoy mixing music on my DJ controller.
